

## Inventory Counts Made Easier with the R365 Red App!

Entering Inventory Counts on the R365 Red App is easier than ever! Restaurant Managers can spend less time calculating items and more time on the floor.

### See On-The-Fly Alerts

Know when you're out of bounds from the last count.

### Swipe Between Items

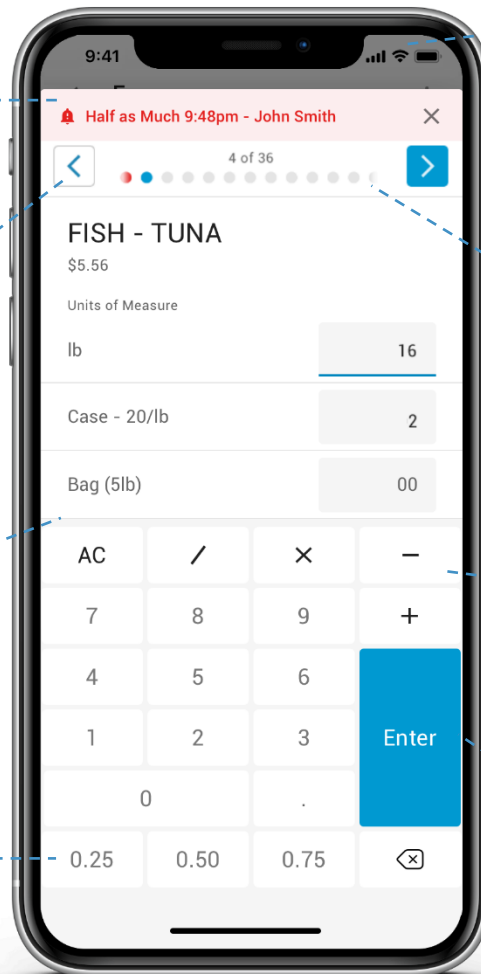

Swipe left or right to move quickly from item to item.

### Auto-Save

Counts save on their own so you can focus on counting.

### Fast Fractions

Quick common fraction buttons help to speed up the count.

### Offline Mode

No wifi? No problem. Counts will auto-save when you come back online.

### Track Your Progress

See how far you've come and how far you have to go.

### Quick Math

Use the built-in calculator to do the heavy math lifting.

### Just Tap Enter

Move through Units of Measure and from item to item with one giant button.

## What do I need to do?

- Download the R365 Red App
- Review all R365 Academy Videos
- View the necessary training articles from the QR Code provided
